This photo shows the different zoning classifications as different colors. Note that 3 acres of Tract B is zoned Light Commercial with the remainder of the tract zoned for single family uses but the likely hood of getting the entire tract zoned LC is good. Tract A is zoned RD-1 and is located outside the city limits. Annexation into the city and permitting will be through the city planning department when the site is developed. Tract A is a particularly good site for a church and or assistant living facility. Tract B would be a great site for a plant nursery – garden center or Landscape Design & Display office.

Tract A has access from Cardinal Point Drive which comes off Hwy. 5. There is presently an assistant living facility and one apartment complex on Cardinal Point Drive now.

Photo below shows the flood zone areas on both parcels. Approximately 13 acres of the Tract A is outside the flood zone area and approximately 6 acres of Tract B is outside the flood zone area. Note the flood zone areas are useable for buffer areas and display of movable items such as plants and lawn items such as gazebos & statuaries.
